

Natural Fertility

SOIL CONDITIONERS

BIOSTIMULANTS

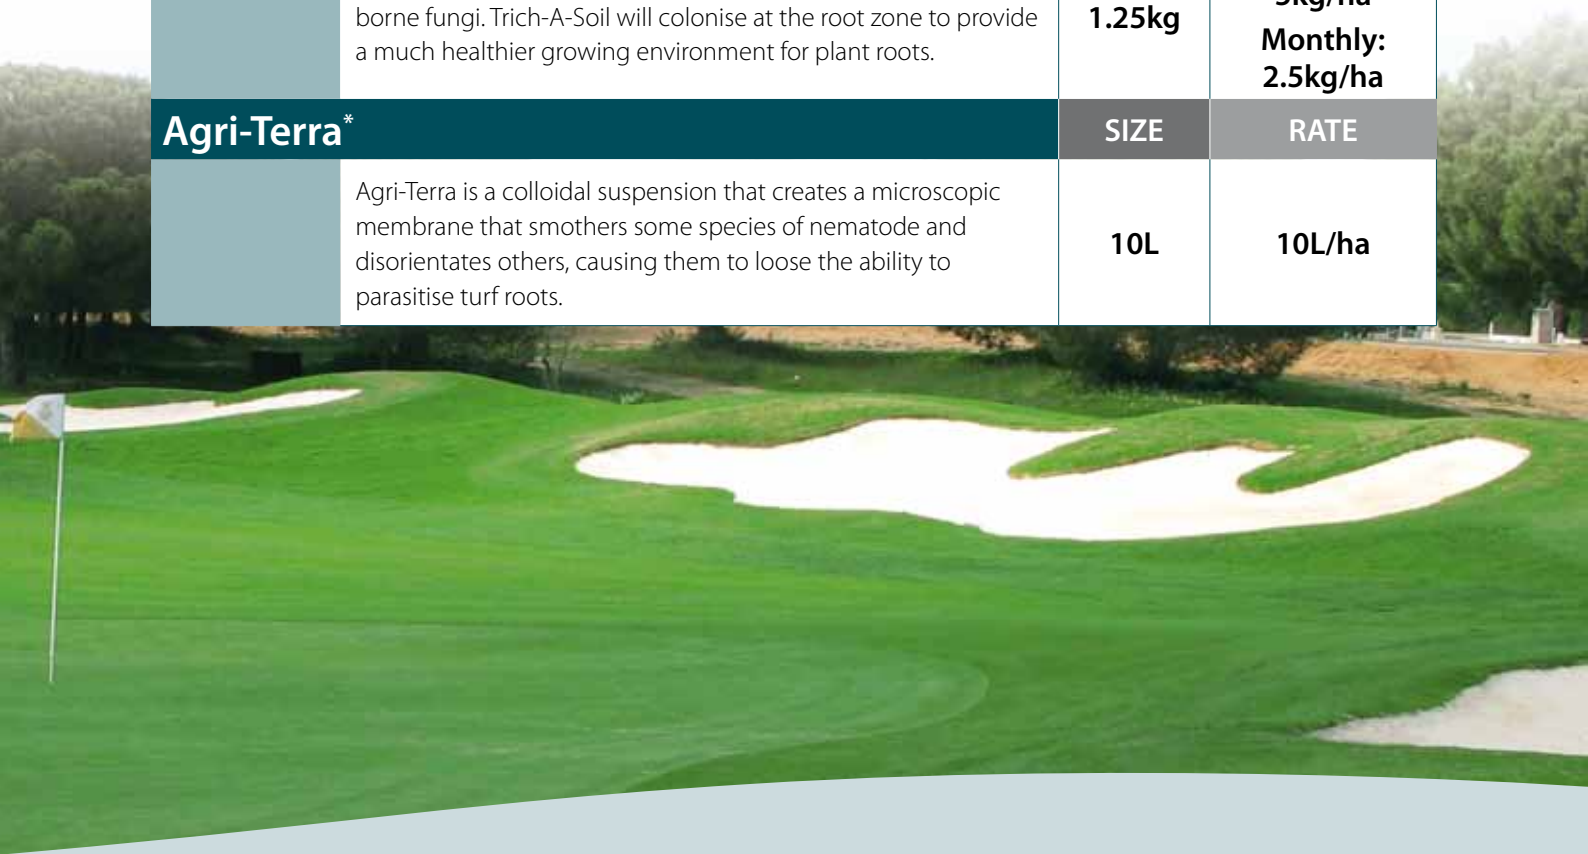

Kelpak*		SIZE	RATE
	A natural seaweed extract of <i>Ecklonia maxima</i> for the promotion and development of the root systems through the stimulation of plant auxin activity.	20L	20-50mL/ 100m²
Biogain* WSP		SIZE	RATE
	Biostimulant in water soluble packets (WSP) containing a unique blend of humic acid, cold water kelp, natural sugars, vitamins and beneficial bacteria.	10 x 114g	5-10 packs/ha
Aminogro*		SIZE	RATE
	An amino acid based biostimulant increasing soil microbial life, organic breakdown, nutrient availability and stress tolerance.	10L	10-40mL/ 100m²
Bio Relief*		SIZE	RATE
	Provides relief to the turf plant when under stress. Bio Relief will help kick start metabolic processes during difficult environmental or turf maintenance periods.	10L	400mL/100m²
Acadian* SSE		SIZE	RATE
	Pure 100% Soluble Seaweed Extract. Naturally occurring plant growth promoters, trace minerals, high potassium levels and proteins in organic form are some of the features of Acadian SSE. Acadian reduces plant stress and stimulates root growth.	5kg	10g/100m²
T-Thatch*		SIZE	RATE
	T-Thatch is a 2-part solution based on fish derived enzymes and digesting microbes. The product breaks thatch into cellulose, silicate and humate parts for the digesting microbes to then convert the decomposed thatch into plant available nutrition.	10L	5L Part A + 5L Part B/ha
Rocastem*		SIZE	RATE
	A liquid treatment scientifically balanced to optimize the ratio of air and water within the root zone. Assists in decompacting the root zone, increases water percolation and encourages microbial activity and consumption of excess organic matter.	10L	5L Part A + 5L Part B/ha
Supa Humus*		SIZE	RATE 100m²
	A blend of liquid humic acid and organic catalysts applied to the soil to increase microbiological activity and improve the cation exchange capacity of the soil.	20L	100-200mL/ 100m²
Growth Formula*		SIZE	RATE
	A product containing IAA, NAA and Vitamin B which initiates and stimulates root development. Cost effective and ideal for establishment of sprigs, stolons or sod.	10L	10L/ha

ORGANIC FERTILISERS

Renovator®		SIZE	RATE 100m ²
	An excellent value blended organic renovation fertiliser which provides good handling characteristics and superior growth response due to its high N:P:K ratio.	20kg	6-15kg
TX-10*		SIZE	RATE 100m ²
	TX 10 is a multi-source organic fertiliser consisting of 10 key components to soil fertility. The main constituents include stable humus, seaweed extract, vegetable extract, and proteins, which are all used to increase cation exchange capacity and better utilise applied nutrients without clogging pore spaces. The addition of a wetting agent helps reduce soil hydrophobicity.	20kg	2-4kg
Kickstart®		SIZE	RATE 100m ²
	Provides essential nutrients for plant growth in a natural form that encourages soil health and plant active growth.	20kg, 1 Tonne	4 – 8kg

NATURAL DISEASE / NEMATODE CONTROL OPTIONS

Trich-A-Soil*		SIZE	RATE
	Trich-A-Soil is a biological product based on two beneficial soil-borne fungi. Trich-A-Soil will colonise at the root zone to provide a much healthier growing environment for plant roots.	1.25kg	1st application: 5kg/ha Monthly: 2.5kg/ha
Agri-Terra*		SIZE	RATE
	Agri-Terra is a colloidal suspension that creates a microscopic membrane that smothers some species of nematode and disorientates others, causing them to lose the ability to parasitise turf roots.	10L	10L/ha

APPLICATION CHART

	Major Use Periods	Frequency of Use	Rate per ha	Rate per 100m ²	Rate per Bowling Green 1400m ²
Acadian SSE*	Spring / Summer	Monthly	1L	10g	140mL
Aminogro*	Spring / Summer	Monthly	1-4L	10-40mL	140-560mL
Biogain WSP*	Spring / Summer	Monthly	1.14kg	11.4g	160g
Bio Relief*	Spring / Summer	Monthly	40L	400mL	5.6L
Kelpak*	Spring / Summer	Monthly	2-5L	20-50mL	280-700mL
Rocastem*	Summer	Monthly	5L Part A + 5L Part B	50mL Part A + 50mL Part B	700mL Part A + 700mL Part B
T-Thatch*	Spring / Summer / Autumn	Monthly	5L Part A + 5L Part B	50ml A+ 50mlB	700mL Part A + 700mL Part B
Agri-Terra*	Spring / Summer	2 applications / 4 weeks apart	10L	100mL	1.4L
Trich-A-Soil*	Spring / Summer / Autumn	Monthly	2.5kg	25g	336g
Kickstart*	At Renovation	As required	400-800kg	4-8kg	56-112kg
TX10*	At Renovation	As required	200-400kg	2-4kg	28-18kg
Supa Humas*	Year Round	Monthly	10-20L	100-200mL	1.4-2.8L

NUTURF AGRONOMY SERVICES DEPARTMENT

Nuturf's highly qualified Agronomy Services team provides a range of Analytical and Diagnostic Services.

The reports are available online and include recommendations based upon sound agronomic principles.

For more information on our services, enquire with your Territory Manager.

For more information contact your local Nuturf Territory Manager on **1800 631 008** or visit www.nuturf.com.au
