

Plant Growth Regulators RANGE

PLANT GROWTH REGULATORS

Primo* Maxx	120g/L Trinexapac Ethyl	SIZE	RATE
<p>Primo MAXX is an efficient and versatile turf management tool that maximizes turf quality, pre-conditions for stress prevention, and optimizes resources.</p> <p>Primo MAXX improves turf uniformity and health to provide a smooth, tightly knit cover that is better able to withstand stress. Primo MAXX achieves this by increasing the lateral spread and turf density, in addition to slowing the vertical growth of the grass. This enhances the playability of many surfaces including fairways, greens and tees on golf courses as well as sport fields and other playing surfaces.</p>		5L	0.4-8L/Ha
Primo* EC	250g/L Trinexapac Ethyl	SIZE	RATE
<p>A unique tool for turf managers that improves turf quality, tolerance to stress, water efficiency and reduces costs associated with mowing. It is a key ingredient to management programmes in a wide variety of turf situations, including golf courses, sports fields, race tracks, parks and gardens.</p>		5L	0.2-4L/Ha
Short STOP*	200g/L Paclobutrazol	SIZE	RATE
<p>A useful product registered for the suppression and restriction of <i>Poa annua</i> (Winter Grass) and growth regulation in turfgrass.</p>		5L	0.5-2.8L/ Ha
