

Water

TREATMENT

WATER TREATMENT PRODUCTS

Aqua Gyp		SIZE	RATE
	A highly soluble gypsum form, suitable for injecting into irrigation lines. Ideal for correcting calcium deficiencies or offsetting the negative effects of sodium in the water.	25kg	1kg/1000L of water
LakePak		SIZE	RATE
	A concentrated microbial based biological lake clarifier and deodorizer in Water Soluble Packet (WSP) form for ease of use.	10 x 114g Packs	Apply 1 WSP per 1200m ³ of water
ReliepH		SIZE	RATE
	Treats poor quality water by lowering alkalinity and neutralising harmful bicarbonates which reduces the sodium hazard. The unique formulation of RELIEPH™ works in the soil for weeks, opening soil pore space to allow leaching of excessive salts.	200L, 1000L	Dependent upon water quality
Soilmax Liberate		SIZE	RATE
	Liberate is a low pH buffered acidic solution that when applied to soils unlocks soil nutrients such as calcium made unavailable by high bicarbonate irrigation waters or a high soil pH.	10L	5-10L/ha

NUTURF AGRONOMY SERVICES DEPARTMENT

Nuturf's highly qualified Agronomy Services team provides a range of Analytical and Diagnostic Services.

The reports are available online and include recommendations based upon sound agronomic principles.
