BLADES

standard blade width and spacing
17 x 5/64" (2mm) blades at 1 1/4" (30mm) spacing

optional blade widths
3/64" (1mm) and 1/8" (3mm)

optional variable spacing when not injecting sand

tempered steel blades with eight tungsten tips
per blade

blades fitted in reverse rotation to slice cleanly
through the turf

deep scalloped design to prevent blades from
becoming clogged

A floating head pedestrian Graden with the ability to inject sand through a gravity feed system. Wider and faster than the GS04, it is ideal for level and undulating areas such as golf greens, approaches and lawns. Don't just groove it, fill it!

Cuts, fills and firms in one pass!

Material out, sand in

Blades in the floating head

Sand fills the grooves just millimeters behind the blades.
