

Technical Information Sheet

KikStart Organic Lawn & Garden Fertiliser

KikStart is a unique fertiliser that is manufactured from organically enriched composted manure supplemented with essential plant nutrients.

KikStart provides essential nutrients for plant growth in a natural form that encourages soil health and plant active growth.

KikStart is a granular fertiliser that breaks down slowly over time releasing the nutrients slowly to provide sustained growth for up to three months.

The organic manure component of KikStart improves the health and vitality of the soil while adding additional nutrients. Improves the water retention properties of the soil and encourages earthworms and beneficial microorganisms that assist soil health.

Stamina Wetting Agent has been incorporated into KikStart to assist water and nutrients penetrate deep into the root zone when rainfall occurs.

Kikstart has a gentle organic formulation that will not burn plants. Therefore the need to water in immediately is not necessary.

BENEFITS:

- Easy to spread granular formulation
- Contains soil wetter
- Low odour
- Feeds for up to 3 months

DIRECTIONS FOR USE:

Situation	Rate
Flower Beds	Spread 100g of Kikstart per m ² and dig into soil to a spade's depth prior to planting. Apply a further 100g per m ² every 6-8 weeks.
General Garden Use	Apply 100g per m ² for native shrubs and sensitive species such as azaleas.
Turf Grass	Apply 4-8kg per 100 m ² (400-800kg per Ha)

PACK SIZE: Available in 20kg & 1T bags

Typical Analysis	%
Total Nitrogen (N)	3.2%
as Ammonium	2.6%
as Organic	0.6%
Total Phosphorous (P)	2.8%
as Water Soluble	1.6%
as Citrate Soluble	0.8%
as Citrate Insoluble	0.4%
Total Potassium (K)	2.1%
as Sulphate	2.1%
Sulphur (S)	4.8%
Calcium (Ca)	8.0%
Iron (Fe)	1.0%
