DIRECTIONS FOR USE

Apply Stamina® 90 as required but efficacy is long term.

TANK MIX FLEXIBILITY

Tank mix combinations with Stamina® 90 have not been tested on all varieties under all possible growing conditions. If the user is unsure a limited area should be tested and reasonable judgement and caution should be exercised. A jar test is recommended prior to broad scale use.

STAMINA® 90

LONG-TERM, NON-BURN WETTING AGENT

APPLICATION RATES

Situation	Rate	Rate/Ha	Comments
Preventative application of Localised Dry Spot in Sportsfields and Fairways	250-500mL/100m ²	25-50L	Apply in no less than 400L/ha of water. Irrigation is not critical but is recommended to ensure product effectiveness. Repeat treatments at the desired application frequency.
Preventative application of Localised Dry Spot in Greens and Tees	250-500mL/100m ²	25-50L	Apply in no less than 400L/ha of water. Irrigation is not critical but is recommended to ensure product effectiveness. Repeat treatments at the desired application frequency.
Curative application of Localised Dry Spot (Green, Tees, Fairways and Sportsfields)	500mL/100m ²	50L	Apply in no less than 400L/ha of water. Irrigation is not critical but is recommended to ensure rapid hydration of the profile. Repeat applications fortnightly and continue as required until recovery occurs.
Dew control	250-500mL/100m ²	25-50L	Application of Stamina® 90 on the day or one day prior to the event will help prevent dew formation. Application of Stamina® Rescue at 500mL per 100m ² every 7-10 days will be required for long term dew formation. Although irrigation is not essential, for best results, irrigate following application with 4-6mm of water.
Domestic Gardens (Lawns and Garden Beds)	15mL/10L		Sufficient to drench area of up to 5m ² . Water in well following application. Apply as necessary.
Horticulture (General Use)	150mL/100L		Apply around base of plants or tree and water in well following application. Apply as necessary.

STORAGE AND DISPOSAL

Store in original containers and dispose of empty containers in accordance with local law.

PRECAUTIONARY STATEMENTS

Always consult the Material Safety Data sheet (MSDS) for specific instructions. Keep out of reach of children. Users are cautioned to take reasonable safety precautions when handling and applying this product.

FIRST AID

Eye Contact: DO NOT rub eyes. Immediately flush eyes with water. Seek medical attention if necessary.

Skin Contact: Remove contaminated clothing and immediately wash affected area for at least 5 minutes. If redness or irritation persists, seek medical attention as needed.

If Swallowed: Give large amounts of water
