

# APPLICATION GUIDE

Apply at the rate of 2.0kg/100m<sup>2</sup> or 200kg/ha.

Apply to dry foliage on medium to low cut turf surfaces such as sportsfields, golf fairways, tees, surrounds and general amenity areas. **DO NOT** use on golf greens or bowling greens. Water within 6-hours of application with at least 6mm of water. Iron can stain some surfaces, sweep off hard surfaces such as concrete to avoid staining, **DO NOT** wash off. **DO NOT** apply when temperature exceeds 28°C.

## SPREADER SETTINGS GUIDE

SPREADERS	GROUND SPEED	WIDTH OF COVERAGE	PRODUCT RATE	SPREADER SETTINGS
AccuPro 2000	5km/hr	3m	2.0kg/100m <sup>2</sup>	M
Model SR 2000				M
Lesco				# 20

Spreader settings are a guide only, all spreaders should be calibrated before use.

## WARNING

**DO NOT** swallow. The dust from this product may act as an irritant. Avoid inhalation and contact with the eyes and skin. This fertiliser contains biuret. This fertiliser is for soil application only. **DO NOT** use in foliar sprays.

## IMPORTANT INFORMATION

- Always water fertiliser in well, immediately after application. Watering should involve a thorough saturation of the area.
- Avoid direct contact with plant roots, seeds etc.
- Even, light and regular applications of a quality product will achieve best results.
- Always reseal bags after use and dispose of empty bags properly.
- Sandy soils will require lower rates of fertiliser but more frequent applications.
- Apply sparingly on potted plants as excessive fertiliser can cause burning relatively easily.
- It is much safer to apply small amounts on a regular basis.
- Do not exceed recommended application rates as this can be harmful to plants.

## PRODUCT INFORMATION

Black Label Pro Hi - K 14-0-24 is a premium, controlled release mini (200-220SGN) sports turf fertiliser formulated and blended in Australia for use on professional turf surfaces. Containing a moderately high portion of controlled release nitrogen in combination with a high load controlled release potassium plus iron with manganese Pro Hi-K is well suited to late summer / autumn use where growth is to be sustained but equally structurally strengthened as seasons change and physical resilience becomes a focus. The increased potassium assists late summer stress tolerance.
