

Calcium Nitrate *In a highly soluble form for fertigation*

Active ingredients: Calcium Nitrate Prill

Pack size: 25kg

Calcium Nitrate is a highly soluble form of calcium and nitrogen which is suitable for any fertigation or hydroponic situations where nitrogen and calcium are required.

General information

- Always water fertiliser in well after application. Watering should result in a thorough saturation of the area.
- Avoid direct contact with plant roots and seeds.
- Even, light and regular applications of this product will achieve the best results.
- Always reseal bags after use.
- Sandy soils will require lower rates of fertiliser but more frequent applications.
- Use sparingly on potted plants.
- It is safer to apply small amounts more regularly.

Application hints

- 200-300 kg/ha
- Suitable for a broad range of plants including turf, fruit, vegetables, flowers and bulbs

Guaranteed Minimum Analysis

TOTAL NITROGEN (N)	15.5%
TOTAL Calcium (Ca)	19%
