NUTURF®

FOLIIMAX®

KELP+ SEAWEED CONCENTRATE

KELP ENHANCED TECHNOLOGY

A concentrated liquid seaweed extract formulated from premium harvested kelp. FoliMAX Kelp+ assists in stimulation root development, and promoting overall plant health, particularly in times of stress. Ideal for use in general maintenance, during the establishment phase and for transplant shock in landscape plants.

KELP+ SEAWEED CONCENTRATE

KELP ENHANCED TECHNOLOGY

DIRECTIONS FOR USE:

Can be used as a foliar and/or soil drench to supplement a complete nutrition program to enhance root development, and to reduce transplant shock in ornamentals. Shake well before use and apply as a spray application in sufficient water to achieve adequate plant coverage at the minimum dilution rates specified below.

Application Rate Chart		
Situation	Rate	Comments
Turf Foliar	10-40L/Ha 100-400mL/100m ²	Apply monthly in a minimum dilution rate of 1:400 parts water.
Turf soil	10-40L/Ha 100-400mL/100m ²	Apply monthly in a minimum dilution rate of 1:200 parts water and irrigate following application with 3-6mm.
Turf establishment	30-50L/Ha 300-500mL/100m ²	Apply in a minimum dilution rate of 1:200 parts water.
Transplant shock in landscape plants	10mL/L water	Drench the root zones of newly planted seedlings or large plants to reduce transplant shock.
Domestic Gardens (Lawns and Garden Beds)	25-50mL/10L	Sufficient to drench area of up to 5m ² . Water in well following application. Apply as necessary.
Horticulture (General Use)	25-50mL/100L	Apply around base of plants or tree and water in well following application. Apply as necessary.

MIXING & COMPATIBILITY:

Fill spray vessel with half the required volume of water. Shake container of FoliMAX Kelp+ and add required amount to spray tank while agitating. Add remaining water to the spray tank. Continue agitating during application. Wash out spray tank, including nozzles, immediately after use. This product may contain some large particles (up to 150 microns) suspended in solution, which may block fine nozzle sprayers.

STORAGE, HANDLING AND DISPOSAL:

Do not store below 5°C, as crystallisation may occur. Do not contaminate lakes, streams, dams or ponds by cleaning equipment or disposal of waste. Avoid contact with eyes and skin by wearing appropriate protective equipment, such as gloves, boots and safety goggles. Shake or stir before use as sediment may settle on the bottom of the drum.

FIRST AID AND SAFETY DIRECTIONS:

In case of contact with eyes or skin, flush at once with large amounts of water. If irritation persists, seek medical attention. If swallowed, drink large amounts of water and induce vomiting. Seek medical attention.

CONDITIONS OF SALE:

Nuturf shall not be liable for any loss, injury damage or death whether consequential or otherwise whatsoever, or howsoever arising whether through negligence or otherwise in connection with the sole, supply, use or application of this product. The supply of this product is on the express condition that the purchaser does not rely on Nuturf's skill or judgement in purchasing or using the same and every person dealing with this product does so at his own risk absolutely. No representative of Nuturf has any authority to add to or alter these conditions.
