

Technical Information Sheet

Prolific Blue AN Fertiliser

Prolific Blue AN is a high quality, compound fertiliser designed for dry spreading application, supplying the nutrient requirements for many horticultural crops, including vegetables, fruits, vines, flowers, turf and ornamentals.

Prolific Blue AN is suitable for pre plant, planting and side dressing applications, guaranteeing an even distribution of nutrients for access by plant roots. This means that each plant receives the same amount of NPK and trace elements resulting in uniform growth.

| Guaranteed Minimum Analysis | |
|-----------------------------|--------------------------------|
| TOTAL NITROGEN (N) | 12% |
| - as ammonium | 8.0% |
| - as organic | 4.0% |
| TOTAL PHOSPHORUS (P) | 5.2% |
| - as water soluble | 3.4% |
| - as citrate soluble | 1.8% |
| TOTAL POTASSIUM (K) | 14.1% as sulphate |
| TOTAL SULPHUR (S) | 6% as sulphate |
| TOTAL CALCIUM (Ca) | 1.5% as sulphate |
| TOTAL MAGNESIUM (Mg) | 1.2% as sulphate |
| TOTAL ZINC (Zn) | 0.01% as oxide |
| TOTAL BORON (B) | 0.02% as calcium borate |
| TOTAL IRON (Fe) | 0.05% as iron oxide |

Pack size 20kg bags

| Application Rate Table | | |
|------------------------|-------------|---|
| Crop | Rate per Ha | Comments |
| Vegetables | 400-800kg | Apply as a side dressing beside plants along furrows. |
| Fruit Trees | 400-600kg | |
| Vines | 250-800kg | Apply to ground along the dripline of trees and vines |
| Nurseries | 400-600kg | |
| Turf | 250-300kg | Apply as a broadacre topdressing water in after application |
