

Section 1 - Identification of the Material and Supplier

Product Name: RenoV8

Other Means of Identification: Mixture

Recommended Use of the Chemical and Restriction on Use: Agricultural fertiliser

Details of Manufacturer or Importer:

Australian Agribusiness (Holdings) Pty Ltd
Suite 201, Level 2, 3 Rider Boulevard
Rhodes NSW 2138

Phone Number: 02 9395 1200 (office hours)

This version issued: September 2024 and is valid for 5 years from this date.

Emergency telephone number: National Poisons Centre: 13 1126

Section 2 - Hazards Identification

Hazardous Nature:

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia (SWA).

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (7th edition), IATA and IMDG/IMSBC.

GHS Signal word: NONE. Not hazardous.

Hazard Statements

Not Hazardous - No criteria found.

Precautionary Statements

P102: Keep out of reach of children.

P261: Avoid breathing dust/fumes/gas/mist/vapours/spray

P262: Do not get in eyes, on skin, or on clothing.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P353: Rinse skin with water/shower.

P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P370+P378: Not combustible. Use extinguishing media suited to burning materials.

P402+P404: Store in a dry place. Store in a closed container.

P501: Dispose of contents/container in accordance with local/regional/national/international regulations.

Section 3 - Composition/Information on Ingredients

Chemical Characterisation: Mixtures

Description: Mixture of substances listed below with nonhazardous additions.

Hazardous Components:		
CAS: 57-13-6	Urea	20 - 30%
CAS: 16389-88-1	Dolomite	20 - 30%
CAS: 7778-80-5	Potassium sulphate	10 - 20%
CAS: 7722-76-1	Monoammonium phosphate (MAP)	10 - 20%
CAS: 13547-17-6	Methylene urea	10 - 20%
CAS: n/a	Kelp	5 - 10%

SAFETY DATA SHEET

Section 4 - First Aid Measures

Inhalation: If inhaled, remove to fresh air. Seek medical attention if breathing problems develop.

Skin Contact: In case of skin contact, remove contaminated clothing and wash affected areas with water and soap. Seek medical attention if irritation develops and persists.

Eye Contact: In case of eye contact, rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing until product is removed or irritation has ceased. Seek medical attention if irritation persists.

Ingestion: If swallowed, do not induce vomiting. Give 1-2 glasses of water to drink in small sips. Never give anything by mouth to an unconscious person. Seek medical attention if feeling unwell.

Symptoms Caused by Exposure:

Inhalation: May cause respiratory irritation.

Skin Contact: May cause skin irritation.

Eye Contact: May cause eye irritation.

Ingestions: May cause gastrointestinal irritation, nausea, diarrhoea and vomiting.

Section 5 - Fire Fighting Measures

Specific Hazards Arising from the Chemical:

Fire decomposition products may include oxides of nitrogen, ammonia, sulphur compounds and various, unidentified, potentially toxic fumes in confined spaces.

Product is not flammable.

Containers close to fire should be removed only if safe to do so. Use water spray to cool fire exposed containers.

Minimise run-off from firefighting entering drains or water courses.

Suitable Extinguishing Media: Use fire extinguishing methods suitable to surrounding conditions.

Special Protective Equipment and Precautions for Fire Fighters:

When fighting a major fire wear self-contained breathing apparatus and protective equipment.

Section 6 - Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures:

Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation. Avoid dust generation.

Environmental precautions: In the event of a major spill, prevent spillage from entering drains or water courses.

Methods and Materials for Containment and Cleaning Up:

Pick up large pieces and clean up small pieces and dusts with a vacuum or by a wet sweeping technique.

Do not use compressed air.

Section 7 - Handling and Storage

Precautions for Safe Handling:

Use of safe work practices are recommended to avoid eye or skin contact and inhalation of dust.

Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing before storage or re-use.

Provide eye wash fountains and safety showers in close proximity to points of potential exposure.

Conditions for Safe Storage:

Store in a cool, dry and well-ventilated area. Keep container tightly closed when not in use. Protect from heat, sparks, open flames and other sources of ignition. Keep away from strong oxidising agents, acids, hypochlorites and alkalis.

SAFETY DATA SHEET

Section 8 - Exposure Controls and Personal Protection

Exposure Standards:

No specific exposure standards are available for this product.

Exposure Standards:	
Nuisance dust	
WES	TWA: 10 mg/m ³

Personal Protection:

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715 and 1716**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: **AS/NZS 4501**, Industrial Eye Protection: **AS/NZS 1337**.

Engineering Controls: Natural ventilation should be adequate under normal use conditions.

Respirator Protection:

Respiratory protection is not required under normal use conditions. Where an inhalation risk exists, wear dust mask or approved particulate respirator (filter type P). At high dust levels, wear a powered air purifying respirator (PAPR) with P3 filter or an air-line respirator or a full-face P3 (particulate) respirator. See above AS/NZS standards for more information.

Skin Protection:

Skin protection is not required under normal use conditions.

For prolonged or repeated contact, use protective gloves. See above AS/NZS standards for more information.

When selecting gloves for use against certain chemicals, the degradation resistance, permeation rate and permeation breakthrough time should be considered.

Occupational protective clothing (depending on conditions in which it has to be used, in particular as regards the period for which it is worn, which shall be determined on the basis of the seriousness of the risk, the frequency of exposure to the risk, the characteristics of the workstation of each worker and the performance of the protective clothing). See above AS/NZS standards for more information.

Eye and Face Protection: Eye and face protectors against dust. See above AS/NZS standards for more information.

Section 9 - Physical and Chemical Properties:

Appearance:

Form:	Granule.
Colour:	Dark coloured
Odour:	Slight organic odour.
Odour Threshold:	No information available.
pH-Value:	No information available.
Freezing Point/Melting Point:	Solid at normal temperatures.
Initial Boiling Point/Boiling Range:	No information available.
Flash point:	No applicable.
Flammability (solid, gas):	Product is not flammable.
Autoignition temperature:	No information available.
Decomposition Temperature:	No information available.
Explosion Limits:	
Lower:	No information available.
Upper:	No information available.
Vapour Pressure:	No information available.
Vapour Density:	No information available.
Density:	approx 1.2 g/cm ³ .
Solubility in Water:	Slightly soluble.
Evaporation Rate:	No information available.
Partition Coefficient (n-octanol/water):	No information available.

SAFETY DATA SHEET

Section 10 - Stability and Reactivity

Possibility of Hazardous Reactions: No dangerous reactions known under conditions of normal use.

Chemical Stability: Stable at ambient temperatures and under normal conditions of storage and use.

Conditions to Avoid: Heat, sparks open flames and other sources of ignition.

Incompatibilities: Strong oxidising agents, acids, hypochlorites and alkalis.

Hazardous Decomposition Products: Decomposition products may include oxides of nitrogen, ammonia, sulphur compounds and various, unidentified, potentially toxic fumes in confined spaces.

Section 11 - Toxicological Information

Toxicity:

Acute Health Effects

Inhalation: May cause respiratory irritation.

Skin: May cause skin irritation.

Eye: May cause eye irritation.

Ingestion: May cause gastrointestinal irritation, nausea, diarrhoea and vomiting.

Skin Corrosion/Irritation: Based on classification principles, the classification criteria are not met.

Serious Eye Damage/Irritation: Based on classification principles, the classification criteria are not met.

Respiratory or Skin Sensitisation: Based on classification principles, the classification criteria are not met.

Germ Cell Mutagenicity: Based on classification principles, the classification criteria are not met.

Carcinogenicity:

Based on classification principles, the classification criteria are not met.

This product does NOT contain any IARC listed chemicals.

Reproductive Toxicity: Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) – Single Exposure:

Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) – Repeated Exposure:

Based on classification principles, the classification criteria are not met.

Aspiration Hazard: Based on classification principles, the classification criteria are not met.

Chronic Health Effects: No information available

Existing Conditions Aggravated by Exposure: No information available.

Section 12 - Ecological Information

Ecotoxicity:

Aquatic toxicity: The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

CAS: 7778-80-5	Potassium sulphate	
Oral	LD50	6,600 mg/kg (Rattus norvegicus (rat))

Persistence and Degradability: No data available on finished product.

Bioaccumulative Potential: No data available on finished product.

Mobility in soil: No data available on finished product.

Other adverse effects: No further relevant information available.

SAFETY DATA SHEET

Section 13 - Disposal Considerations

Disposal Methods and Containers:

Dispose according to applicable local and state government regulations.

Special Precautions for Landfill or Incineration:

Please consult your state Land Waste management Authority for more information.

Section 14 - Transport Information

UN Number: Not regulated

Proper Shipping Name: Not regulated

Dangerous Goods Class: Not regulated

Packing Group: Not regulated

Section 15 - Regulatory Information

Australian Inventory of Industrial Chemicals:

All components are on the inventory or in compliance with the inventory.

Standard for the Uniform Scheduling of Medicines and poisons (SUSMP) – Poison Schedule:

Not a scheduled poison.

Section 16 - Other Information

This SDS contains only safety-related information. For other data see product literature.

Acronyms:

ADG Code	Australian Code for the Transport of Dangerous Goods by Road and Rail	IMDG	International Maritime Dangerous Good
AIIC	Australian Inventory of Industrial Chemicals	IMSBC	International Maritime Solid Bulk Code
CAS number	Chemical Abstracts Service Registry Number	NTP	National Toxicology Program (USA)
Hazchem Number	Emergency action code of numbers and letters that provide information to emergency services especially fire-fighters	SUSMP	Standard for the Uniform Scheduling of Medicines & Poisons
IARC	International Agency for Research on Cancer	SWA	Safe Work Australia (formerly ASCC and NOHSC)
IATA	International Air Transport Authority	UN Number	United Nations Number

THIS SDS SUMMARISES OUR BEST KNOWLEDGE OF THE HEALTH AND SAFETY HAZARD INFORMATION OF THE PRODUCT AND HOW TO SAFELY HANDLE AND USE THE PRODUCT IN THE WORKPLACE. EACH USER MUST REVIEW THIS SDS IN THE CONTEXT OF HOW THE PRODUCT WILL BE HANDLED AND USED IN THE WORKPLACE.

IF CLARIFICATION OR FURTHER INFORMATION IS NEEDED TO ENSURE THAT AN APPROPRIATE RISK ASSESSMENT CAN BE MADE, THE USER SHOULD CONTACT THIS COMPANY SO WE CAN ATTEMPT TO OBTAIN ADDITIONAL INFORMATION FROM OUR SUPPLIERS. OUR RESPONSIBILITY FOR PRODUCTS SOLD IS SUBJECT TO OUR STANDARD TERMS AND CONDITIONS, A COPY OF WHICH IS SENT TO OUR CUSTOMERS AND IS ALSO AVAILABLE ON REQUEST.

Please read all labels carefully before using product.

This SDS is prepared in accord with the SWA document “Preparation of Safety Data Sheets for Hazardous Chemicals - Code of Practice” (July 2020) and GHS Revision 7
