STAMINA[®] RESCUE

CURATIVE TECHNOLOGY FOR RAPID RECOVERY

ACTIVE INGREDIENTS:

55% BLEND OF PROPRIETARY SURFACTANTS, 45% INERT INGREDIENT

Stamina[®] Rescue is for turf that requires curative action on existing localised dry spot (LDS) problems. It will enhance penetration and distribution of water, reducing problems associated with hydrophobic soils. Stamina[®] Rescue contains plant health stimulants to aid the recovery of stressed turf.

- 1,000 L

DIRECTIONS FOR USE

Stamina® Rescue should be applied in a monthly program.

TANK MIX FLEXIBILITY

Tank mix combinations with Stamina® Rescue have not been tested on all varieties under all possible growing conditions. If the user is unsure a limited area should be tested and reasonable judgement and caution should be exercised. A jar test is recommended prior to broad scale use.

STAMINA® RESCUE

CURATIVE TECHNOLOGY FOR RAPID RECOVERY

APPLICATION RATES

Situation	Rate	Rate/Ha	Comments
Localised Dry Spot Management (Greens, Tees, Fairways and Sportsfields)	250mL/100m ²	25L	Apply in no less than 400L/ha of water. Irrigation is not critical but is recommended to ensure rapid hydration of the profile. Repeat applications fortnightly and continue as required until recovery occurs. Nuturf highly recommends the use of Stamina® Balance if a preventative program is desired.
Fairy Ring Management	250mL/100m ²	25L	Apply Stamina® Rescue to assist in re-wetting hydrophobic areas caused by the fairy ring fungi. Stamina® Rescue can be applied in combination with tested soil targeted chemicals and fertilisers.
Dew Control	250mL/100m ²	25L	Application of Stamina® Rescue on the day or one day prior to the event will help prevent dew formation. Application of Stamina® Rescue at 500mL per 10m every 7-10 days will be required for long term dew formation.
Post Turf Laying Application	250mL/100m ²	25L	To enhance establishment, after laying sod apply Stamina® Rescue to ensure even water movement into the soil bed.
Domestic Gardens (Lawns & Garden Beds)	20mL/10L		Sufficient to drench area of up to 5m ² . Water in well following application. Apply as necessary.
Horticulture (General Use)	200mL/100L		Apply around base of plants or tree and water in well following application. Apply as necessary.

STORAGE AND DISPOSAL

Store in original containers and dispose of empty containers in accordance with local law.

PRECAUTIONARY STATEMENTS

Always consult the Material Safety Data sheet (MSDS) for specific instructions. Keep out of reach of children. Users are cautioned to take reasonable safety precautions when handling and applying this product.

FIRST AID

Eye Contact: DO NOT rub eyes. Immediately flush eyes with water. Seek medical attention if necessary.

Skin Contact: Remove contaminated clothing and immediately wash affected area for at least 5 minutes. If redness or irritation persists, seek medical attention as needed.

If Swallowed: Give large amounts of water
