fertech

Essential₁₄₋₃₋₅ + Micros

Liquid nutritional supplement

-  This NPK fertiliser solution is ideal for use on all turf surfaces requiring rapid growth and recovery
-  Easy to apply liquid formulation
-  Chelated micro-nutrients enhance plant availability
-  Delivers essential elements for plant growth

Guaranteed Minimum Analysis (W/V)

Nitrogen as Urea 9.6 %	EDTA Chelated Micro-nutrients
Nitrogen as Ammonium 2.7%	Fe 0.09%
Nitrogen as Nitrate 1.9 %	Zn 0.05%
Total Nitrogen 14.2%	Mn 0.02%
P as Water Soluble 3%	Cu 0.006%
Potassium as Nitrate 5.3%	

pH: 4.1 S.G: 1.17

CONTENTS

5L 20L 200L 1000L

Direction for Use:

Apply as a spray application to actively growing turf and ornamental plants to deliver an essential package of major and minor nutrients for plant development. Dilute with water, using the application rate that delivers the desired level of nutrients. When nutrient demands are high, use of the rate at the upper end of the Application Rate Table are recommended. Apply in sufficient water to achieve adequate plant coverage. A water volume of 5-10L per 100m² is recommended. Avoid mowing for 24 hours following an application.

Application Details

Situation	Rate/100m ²	Rate/Ha	Water Volume	Comments
Foliar Applications to Turf	200mL–500mL	20L–50L	Minimum of 5L/100m ² (500L/Ha)	Use as a general maintenance to provide consistent plant nutrient levels.
Soil Applications to Turf	500mL–1L	50L–100L	Minimum of 5L/100m ² (500L/Ha) and irrigate with 3 – 6mm of water following application.	Adjust application rate to meet the plant's nutrient requirements or to achieve the desired growth and recovery rate.
Landscape and Ornamental Plants	25 – 40mL		10L	Apply as a foliar spray or soil drench.

Mixing:

Fill spray vessel with half the required volume of water. Add required amount of Fertech Essential to the spray tank while agitating. Add remaining water to the spray tank. Continue agitating during application. Wash out spray tank, including nozzles, immediately after use.

Storage, handling & disposal:

Do not store below -5°C, as crystallisation may occur. Do not contaminate lakes, streams, dams or ponds by cleaning equipment or disposal of waste. Avoid contact with eyes and skin by wearing appropriate protective equipment, such as gloves, boots and safety goggles.

First aid:

In case of contact with eyes or skin, flush at once with large amounts of water. If irritation persists, seek medical attention. If swallowed, drink large amounts of water and induce vomiting. Seek medical attention.
