PREMIUM SOIL CONDITIONERS

Dolomite Mini

21% Ca, 12% Mg

AmendMAX Dolomite Mini is a highly concentrated, water –dispersive dolomite amendment suitable for use on fine cut turf such as golf and bowling greens, either at renovation or throughout the year in a maintenance program. Excellent for delivering vital calcium and magnesium to the soil profile, for a healthy plant and robust soil structure.

Features of Dolomite Mini

- ✓ Highly concentrated, water-dispersive granule
- ✓ Ideal for use on finecut turf such as golf and bowling greens
- ✓ Excellent for displacing sodium & correcting calcium deficiencies in soil
- ✓ Ideal for renovation or throughout the year in a maintenance program
- ✓ Premium soil conditioner
- ✓ For best results apply with a calibrated fertiliser spreader

Application Guide

For best results, apply the product to a dry leaf, and then irrigate following application to disperse the granules and move them into the soil profile to initiate the amendment process. To achieve the best results, applying using a calibrated fertiliser spreader.

For more information on spreader settings, discuss with your sales representative.

Storage & Disposal

Reseal partially used bags, and store all bags in a dry, well-ventilated area. If the product becomes wet, the granular nature of the product will be compromised.
