FOLIIMAX®

CAL-MAG 13%Ca, 3.4%Mg, 11%N

RAPID SODIUM DISPLACEMENT

A liquid soil amendment containing 13% calcium and 3.4% magnesium in a very soluble nitrate form for rapid removal of sodium accumulated in the soil profile. FoliMAX Cal-Mag can also be used in a maintenance program for prevention of calcium and magnesium deficiencies and to assist in balancing soil nutrition.

GUARANTEED MINIMUM ANALYSIS Wt/Vol:

Nitrogen (N) as Nitrate 11.2%
Calcium (Ca) as Nitrate 13%
Magnesium (Mg) as Nitrate 3.4%

DIRECTIONS FOR USE:

Can be used as a soil drench for sodium flushing or as a foliar application to overcome sodium issues within the plant. Apply as a spray application on all turf grasses and landscape plants in sufficient water to achieve adequate plant coverage. Use a water volume of 5–15L per 100m² (500–1500L/Ha), depending on the application rate. Do not apply when temperature exceeds 26 °C and avoid mowing for 24 hours following an application. Always follow up with immediate irrigation to ensure good soil penetration and eliminate any chance of leaf burn. If the soil profile is dry or the turf / landscape plant is under heat or drought stress, it is recommended to irrigate prior to, and then after application to obtain the best results.

Situation	Rate	Comments
Foliar application	10–20L/Ha 100–200mL/100m ²	Apply in a minimum of 500L of water per hectare. Repeat every 14–30 days during the active growing season.
Soil application	10–20L/Ha 100–200mL/100m ²	Apply in a minimum of 500L of water per hectare and irrigate following application with 3–6mm of irrigation. Repeat every 14–30 days during the active growing season.
Landscape plants and ornamentals	150mL/100m ²	Repeat the application every 30 days or as required.

MIXING:

Fill spray vessel with half the required volume of water. Shake container of FoliMAX Cal-Mag and add required amount to spray tank while agitating. Add remaining water to the spray tank. Continue agitating during application. Wash out spray tank, including nozzles, immediately after use.

STORAGE, HANDLING AND DISPOSAL:

Do not store below 0 °C, as crystallisation may occur. Do not contaminate lakes, streams, dams or ponds by cleaning equipment or disposal of waste. Avoid contact with eyes and skin by wearing appropriate protective equipment, such as gloves, boots and safety goggles.

FIRST AID AND SAFETY DIRECTIONS:

In case of contact with eyes or skin, flush at once with large amounts of water. If irritation persists, seek medical attention. If swallowed, drink large amounts of water and induce vomiting. Seek medical attention.

CONDITIONS OF SALE:

Nuturf shall not be liable for any loss, injury damage or death whether consequential or otherwise whatsoever, or howsoever arising whether through negligence or otherwise in connection with the sale, supply, use or application of this product. The supply of this product is on the express condition that the purchaser does not rely on Nuturf's skill or judgement in purchasing or using the same and every person dealing with this product does so at his own risk absolutely.
