NUTURF[®]

FOLIIMAX[®]

IRON+ 6%Fe
WITH NUTREX DELIVERY TECHNOLOGY

FoliMAX Iron+ is a liquid fertiliser solution containing 6% iron with Nutrex Delivery Technology. The Nutrex delivery system harnesses plant carbohydrates within the solution as a catalyst to optimise nutrient uptake through the foliage, maximising application efficiency. For the correction and prevention of iron deficiencies in turf and landscape plants.

FoliMAX IRON+ 6%Fe

WITH NUTREX DELIVERY TECHNOLOGY

DIRECTIONS FOR USE:

FoliMAX Iron+ can be used as a foliar and/or soil drench in a complete and balanced nutrition program as an iron source. Apply as a spray application on all turf grasses and landscape plants that require iron. Dilute with water, using the lower rate for more frequent application and the higher rate where immediate turf growth and colour response is desired. Apply in sufficient water to achieve adequate plant coverage. Use a water volume of 5–15L per 100m² (500–1500L/Ha), depending on the application rate. Avoid mowing for 24 hours following an application.

Situation	Rate	Comments
Foliar	20–40L/Ha 200–400mL/100m ²	Apply in a minimum of 500L of water per hectare. Repeat every 14–30 days during the active growing season.
Turf enhancer	40–50L/Ha 400–500mL/100m ²	Apply prior to tournaments and events to enhance turf colour. Apply in a minimum of 500L of water per hectare.
Soil application	20–40L/Ha 200–400mL/100m ²	Apply in a minimum of 500L of water per hectare and irrigate following application with 3–6mm of irrigation. Repeat every 14–30 days during the active growing season.
Landscape plants and ornamentals	400mL/100m ²	Repeat the application every 30 days or as required.

MIXING:

Fill spray vessel with half the required volume of water. Shake container of FoliMAX Iron+ and add required amount to spray tank while agitating. Add remaining water to the spray tank. Continue agitating during application. Wash out spray tank, including nozzles, immediately after use.

STORAGE, HANDLING AND DISPOSAL:

Do not store below 0 °C, as crystallisation may occur. Do not contaminate lakes, streams, dams or ponds by cleaning equipment or disposal of waste. Avoid contact with eyes and skin by wearing appropriate protective equipment, such as gloves, boots and safety goggles.

FIRST AID AND SAFETY DIRECTIONS:

In case of contact with eyes or skin, flush at once with large amounts of water. If irritation persists, seek medical attention. If swallowed, drink large amounts of water and induce vomiting. Seek medical attention.

CONDITIONS OF SALE:

Nuturf shall not be liable for any loss, injury damage or death whether consequential or otherwise whatsoever, or howsoever arising whether through negligence or otherwise in connection with the sale, supply, use or application of this product. The supply of this product is on the express condition that the purchaser does not rely on Nuturf's skill or judgement in purchasing or using the same and every person dealing with this product does so at his own risk absolutely. No representative of Nuturf has any authority to add to or alter these conditions.
