

# Smooth Lap Backlapping Machine

Keeps your mowers razor sharp and  
100% efficient between services

SCAN FOR MORE

**Removable socket** makes Smooth Lap simple to use. Socket connects easily to cylinder shaft. Fits all shafts by changing the socket to suit the shaft size.

**Emergency Stop button** allows the operator to stop the machine quickly

**Manual Start button** prevents the machine from being started accidentally

**Forward and Reverse switch** enables the spinning direction to be changed to suit any mower
