- Suitable for the trace element requirements of a wide range of crops and situations

**Pack Sizes:** Available in 20kg

### Analysis:

Trace Element	S	Mg	Zn	Fe	Cu	B	Mn	Mo
Percentage	11.8	4.1	1.0	4.0	2.5	0.3	6.7	0.6

### Product Characteristics:

Colour
Off white to green crystalline soluble solid

### Directions for application (refer to product label for more detailed instructions)

Situation	Rate	Comments
Fruits, vegetables	100g per 10m <sup>2</sup>	Apply prior to planting (100kg per ha). This can be broadcast or dissolved in water and sprayed.
Flowers, ornamentals, indoor plants	30g per 10L water	Every 3 months dissolve in watering can and water normally. OR Sprinkle lightly around the edge of the pot or under the drip area of shrubs and trees and water in well.
Turf	1kg per 100L water per 100m <sup>2</sup>	Apply twice a year. (15kg in 1500L of water per bowling green). If renovating it is recommended Tracel be mixed with renovation fertilisers and apply dry while the ground is open.
