

# Crystal Blue Links Creeping Bentgrass

Turf and lawns

## AgriCote®

Suggested sowing rates

New greens: 1 kg/100m<sup>2</sup>

Overseeding: 100–250 grams/100m<sup>2</sup>

Crystal Blue Links has a semi-erect growth habit, aggressive recovery and great disease resistance making it an excellent choice for greens, tees, and fairways. It maintains very good winter colour, quick spring green-up, heat and cold tolerance, and has shown excellent shade tolerance. Crystal Blue Links comes in Barenbrug's tailored seed coat AgriCOTE which enhances seedling establishment and reduces Pythium outbreaks in early establishment.

### Key features

- Excellent salt tolerance
- Great heat and cold tolerance
- Excellent shade tolerance
- Combines brown patch and dollar spot resistance
- Brilliant blue-green colour
- AgriCOTE enhanced

### Key benefits

- Excellent surface where salt is an issue
- Better coverage where greens are shaded
- Protection from diseases during establishment

### Application

Bentgrass greens for golf greens and fairways.

# Performance

## Salt tolerance

**Figure:** Mean percent seed germination rates for entries in a creeping bentgrass salt germination trial conducted in the laboratory and evaluated 11 days after seeding.

AgriCOTE enhanced seed provides:

- Fungicide protection
- Insecticide protection
- Wetting agent
- Trace elements.

Providing you with;

- Better water use efficiency
- Improved establishment
- Uniform seeding and better overall turf quality
- Reduced pest damage
- Fungicide for additional pythium protection

Improve your greens with Barenbrug AgriCOTE bentgrass.
