

Technical Information Sheet

Lexicon[®] Intrinsic[®] Broad-spectrum fungicide

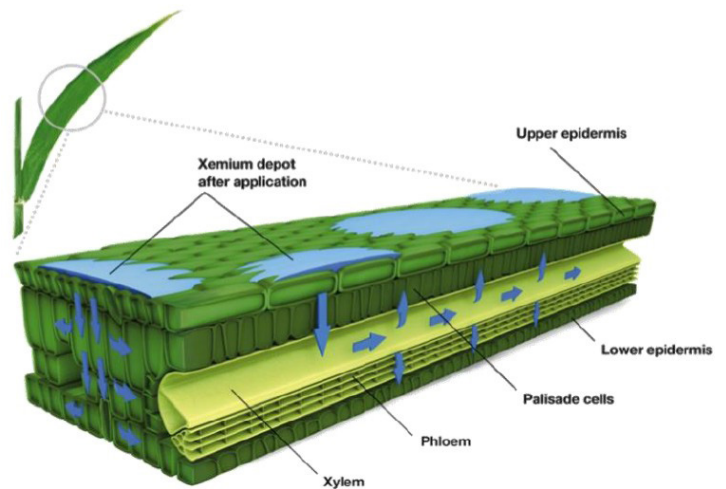

Active ingredients 167g/L fluxapyroxad, 333g/L pyraclostrobin

GROUP 7, 11 FUNGICIDE

Lexicon Intrinsic brand fungicide delivers peak disease performance under pressure. This industry-leading fungicide optimises disease control and provides plant health benefits for longer, stronger roots, increased growth efficiency and greater stress tolerance.

Key features and benefits:

- Broad-spectrum control
- Long residual of up to 28 days
- Plant health benefits
- Foundational product for greens

Two powerful chemistries for the ultimate in broad-spectrum disease control

Lexicon Intrinsic brand fungicide is a combination of the active ingredients Fluxapyroxad and Pyraclostrobin. The SDHI and Strobilurin chemistries complement each other perfectly to provide optimal protection from key turf diseases. They also deliver plant health benefits that help your turf rebound faster from stressors.

Greater disease control for greater peace of mind

Healthy turf is strong, disease resistant and resilient, which is the kind of quality turf you can expect from Lexicon Intrinsic brand fungicide. Research has shown that this fungicide provides excellent control of cool and warm season diseases on turf grass. Whatever the season, your turf has protection from the toughest challenges, and you have peace of mind.

Pack size 500mL **Rate** 1-1.5L/ha

Lexicon® Intrinsic®

Broad-spectrum fungicide

Powerful residual - Lexicon Intrinsic brand fungicide controls diseases for up to 28 days, providing the confidence that comes with long-lasting control.

Broad-spectrum foundation - With its broad-spectrum control, this fungicide is the perfect foundation for enhancing the overall performance of your spray program.

More resilient greens - Lexicon Intrinsic brand fungicide provides championship conditions and faster recovery from stressors like heat, humidity, drought, heavy play and aeration.

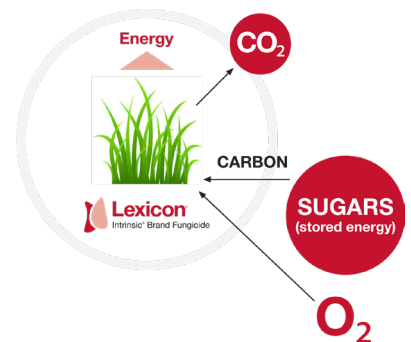

Above: Common use sites for Lexicon Intrinsic brand fungicides

Diseases Controlled

Disease	Cool Season Turf	Warm Season Turf
Brown patch	✓	✓
Dollar spot	✓	✓
Ectotrophic root infecting fungi (ERI)	✓	✓
Fairy ring	✓	✓
Fusarium patch	✓	✓
<i>Pythium</i> blight	✓	✓
<i>Pythium</i> root rot	✓	✓
<i>Pythium</i> root dysfunction	✓	
Spring dead spot	✓	✓
Take-all patch	✓	

Night Respiration
Treated with Intrinsic brand fungicides, lower levels of CO₂ are produced, energy and growth are redirected to the root system – resulting in an efficient and healthier plant
